## BIG FOUR CHIEFS OBEY ORDER OF RAILWAY BOARD

### Former Emperor Charles of Hungary Is Finally Captured

#### MEETING TOMORROW WILL BE ATTENDED BY A FULL DELEGATION

(By Associated Press)  
CHICAGO, Oct. 25.—Judge R. M. Barton, chairman of the railroad labor board, today telegraphed the heads of the four brotherhoods and Switchmen's union, reiterating the previous announcements that all general chairmen are expected to attend the hearing starting here tomorrow.

(By Associated Press)  
CLEVELAND, Ohio, Oct. 25.—W. S. Stone, president of the Brotherhood of Locomotive Engineers, today denied reports that he had advised the general chairmen of the engineers that they need not respond to the citation of the railroad labor board to appear before that board in Chicago tomorrow, by making public the telegrams between Chairman Barton of the board and the "Big Five" executives.

Notwithstanding the fact that the railroad labor board has cited all general chairmen of the "Big Five" railroad transportation organizations to appear before the board tomorrow, Warren S. Stone, president of the Brotherhood of Locomotive Engineers, said he had notified the general chairmen of his organization that they need not respond to the citation.

(By Associated Press)  
CHICAGO, Oct. 25.—The railroad labor board went into executive session here today to consider the situation arising in the misunderstanding on the part of some of the Big five brotherhoods regarding the meaning of the board's order summoning 1400 general chairmen to attend the hearing tomorrow. The railroad executives were asked to meet with the board later.

The labor board, in a statement late today, announces that questions of fines and working conditions will be finally settled by it before any petitions from the railroads for further cuts in the pay of train service men—the big four brotherhoods—switchmen or railway telegraphers will be considered. These organizations are the ones which called the strike. The board will set up a semi-judicial body to determine whether its order of July 1 reducing wages has been or is about to be violated by either side. The method of procedure will be much the same as in a contempt action, it was explained.

#### SOUTHERN PACIFIC REDUCES FREIGHT

(By Associated Press)  
SAN FRANCISCO, Cal., Oct. 25.—The Southern Pacific today announced rate reductions on dried fruits and edible nuts from all California points to all eastern points for fruit and all points north of the Ohio and Potomac rivers for nuts.

#### HARDING STARTS ON SOUTHERN JOURNEY

(By Associated Press)  
WASHINGTON, D. C., Oct. 25.—President Harding left on a special train today for a four-day trip through the south, his first visit to that section since his inauguration.

Minimum yesterday	27	32

#### REVENUE BILL ALLOWS MORE HEAD FAMILY

(By Associated Press)  
WASHINGTON, D. C., Oct. 25.—Without a record vote the senate today approved the house proposal in the revenue bill increasing from \$2000 to \$2500 exemptions to the heads of families having a net income of \$5000 a year or less.

#### EXPULSION BLANTON FROM CONGRESS MONDELL ASKS

(By Associated Press)  
WASHINGTON, D. C., Oct. 25.—The expulsion from the house of representatives of Thomas L. Blanton, Democrat, of Texas, was called for in a resolution introduced by Mondell, Republican leader. The ground for the move was the publication in the Congressional Record as a part of the extension of remarks by Blanton of an affidavit relating to a row at the government printing office, which affidavit was characterized by some of the house members as obscene and unfit for transmission through the mails. In Blanton's absence consideration of the resolution was deferred until Thursday.

Announcement was made that the Texas delegation would meet tomorrow to act on the Blanton case. There was a suggestion from some Democrats that the resolution of expulsion be amended to censure only.

#### MANEUVERS AT COBLENZ WERE HIGH STANDARD

(By Associated Press)  
COBLENZ, Oct. 25.—The handling of the men classed as wounded during the maneuvers of the American forces which closed early in October was as near as possible to those experienced in actual combat.

Each regimental surgeon received an allotment of tags which designated wounds supposed to be received by men under his care. These tags were given to one man for each combat company who, under the direction of the battalion umpire, tagged the proper number of men in each company. These men fell out as wounded, and acted according to the nature of the wound received.

THE CARVING OF  
A NEWSPAPER MAN  
M. A. Farrell, of the Tribune, submitted to a surgical operation for hernia yesterday at the Association hospital. The operation was performed by Drs. H. J. Brown and Dr. Stanley Elms. Mr. Farrell is said to be resting as comfortably as could be expected, and in the meantime William McClure, of the Manhattan Magnet, has come to the relief of the Tribune force—Tribune.

#### BODY UNKNOWN HERO IS SHIPPED UNDER A GUARD

(By Associated Press)  
PARIS, Oct. 25.—The train bearing the body of America's unknown soldier left Paris for Havre this morning. The body arrived here last evening from Chalons-sur-Marne, and an American guard of honor watched over it during the night. A company of French infantry rendered military honors when the train pulled out.

#### CONFERENCE ON ARMAMENT WILL START NOV. 12

(By Associated Press)  
WASHINGTON, D. C., Oct. 25.—Postponement of the opening meeting of the international conference on armament and far eastern affairs until the morning of November 12 was indicated as probable by high officials today. The conflict between the program as originally drafted for the conference and that for the ceremonies incident to Armistice day and the burial of America's unknown soldier was given as the reason.

#### MILL OPERATES AT CAPACITY OF 50 TONS DAILY

Prof. Holmes, superintendent of the Silver Hills Nevada Mines company, came in from Tule canyon and reports the mill running steadily and making a high extraction, and also states the mine never looked better in its history.

About 20 men are employed, and more will be added to the list as soon as the foundation of the other battery is completed. This will increase the milling capacity to 50 tons a day.

Two new high-grade bodies of ore have been opened up in the last 30 days, and the management sees a great future for the Silver Hills company.

Plans are now being laid for a campaign of development on a large scale, and by next spring the Silver Hills company will be among the large producers of silver, gold and lead in the west. Some of the state papers keep knocking the Silver Hills company, but at the same time the mill keeps turning out the bullion and the mine never looked better.

#### SALVATION ARMY LECTURE PLEASING

An appreciative audience listened to the address last night at Eagles hall by Lieutenant Colonel George H. Davis of the Salvation Army, who took for his subject "Under Fire." Colonel Davis was on the Argonne front during the battle doing relief work and he recited many instances that proved highly interesting. He left this morning for Susanville, California, where he will conduct revival services for a time, later going to the head office in San Francisco.

#### CHAIN GANG ESCAPEE MAKES CLEAN GETAWAY

Jose Nicanor, who made his escape from the chain gang last Saturday, seems to have made a complete getaway. Not a trace of the man has since been found and it is believed he succeeded in getting out of the country. Nicanor was serving a six months' sentence for assaulting Juan Mendez with a knife, and had four months yet to serve.

#### IMBIBERS BEER WILL HAVE WAIT FOR BREW

(By Associated Press)  
LOUISVILLE, Ky., Oct. 25.—As long as that breweries are permitted to make beer under regulations first issued by the treasury department, it will not be the "old-fashioned" kind, according to John T. Drane, vice president of a St. Louis brewery. Only malt and hops are used in the making of bar beer, he said, whereas cereal is required for "real beer." Even then, he said, it will be three weeks before the national product can be made.

(By Associated Press)  
ST. LOUIS, Oct. 25.—That the new regulations which place no limit on the number of prescriptions for beer a brewer may issue would cause a serious demand, was the contention of opinion among several representatives of St. Louis brewers.

(By Associated Press)  
DES MOINES, Ia., Oct. 25.—There can be no beef sold in Iowa for any purpose, Attorney General Benjamin Gibson declared, in commenting on the treasury's ruling giving beer a medium-full legal status under the federal laws. Iowa's statute, the attorney general pointed out, provides for the sale of liquor for medicinal purposes but specifically excludes malt beverages.

#### SINN FEINERS BELIEVE CRISIS IS NOW PASSED

(By Associated Press)  
LONDON, Oct. 25.—The view is expressed at Sinn Fein headquarters that the crisis in the Irish conference is now for the present.

The minutes were current that King George might, if necessary, use any influence he possessed within the limits of the British constitution to harmonize conflicting viewpoints in the conference. There was no outward sign that such intervention will take place and it was obvious the king's influence would have to be exerted with the greatest caution, if at all.

#### AUTOS COLLIDE AND MACHINES DAMAGED

An auto accident on the Goldfield road near the point where the turn is made to the Kernick Divide mine, resulted in two cars being wrecked last night. Neil Collins of Goldfield was en route home when he encountered an incoming car, and not being able to pull out on account of the rut and sand his machine was forced back into the road and the two cars came together, both being damaged badly. Fortunately the occupants of neither car were injured. The second car was the property of a Reno man.

#### BUYS TWO BUILDINGS TO GRACE TONOPAH

W. L. "Doc" McGregor is enlarging his realty holdings in Tonopah, having purchased a business building and bungalow in Goldfield, which he is now getting ready to move to this town. The business structure will be placed upon a lot that he owns in the lower part of town, while the bungalow will adorn a lot yet to be decided upon.

#### STEAMSHIP MEN NOT SYMPATHY BROTHERHOODS

(By Associated Press)  
CINCINNATI, Ohio, Oct. 25.—No time was today sent out from national headquarters of the Brotherhood of Railroad and Steamship Clerks, Freight Handlers, Express and Station Employees, numbering over 200,000, that the organization is not in sympathy with the proposed railway strike and the members are ordered not to obey the order to cease work.

#### HOOVER WOULD GIVE RUSSIANS WAR SUPPLIES

(By Associated Press)  
WASHINGTON, D. C., Oct. 25.—A suggestion that congress authorize the war department to donate supplies for use in restoring famine-stricken peoples of Russia was made by Secretary of Commerce Hoover in a letter to Chairman Kahn of the house military affairs committee.

#### BULLION FROM BELMONT MILL IS INCREASED

The Tonopah Belmont Development company came tonight close to breaking a production record during the first 15 days of October. The shipment of the mill showed 55 bars of bullion containing 109,142 ounces of silver which has an estimated value of \$125,000.

As is the usual case where the production amounts to over \$100,000, a guard is sent along with the bullion, and as a result the shipment was accompanied by C. A. Liddell, assistant mine engineer, who had business in San Francisco and who will see that the silver and gold reaches its proper destination.

The production from the Tonopah Belmont mine is unusually heavy and goes to show the great efficiency that prevails throughout the mine and the mill, and the output during the past few weeks has been gradually increased from time to time.

#### COTTONWOOD MINE HAS GOOD SHOWING

Word was received in Tonopah yesterday by Jack Whitman that Pete Wynokis and Frank Macey, who are interested with him in the development of a mining property at Cottonwood, had been ill for the last two weeks with a bad attack of the grip. Advice were to the effect, however, that the boys were rapidly recuperating and would be able to return to Tonopah in the course of a few days.

The development of the Whitman property is bringing satisfactory results, according to a letter received by Mr. Whitman, and in the face of the drift from the 60-foot level of the shaft workings there is a big vein of steel galena exposed that gives values varying from \$50 to \$100 a ton. The fact that steel galena has been found to contain a greater percentage of radium than either carnotite or pitchblende has stimulated the search for this metal, and samples from the Cottonwood district are to be sent to a well-known chemist at Los Angeles to determine the radium content.

#### TRANQUILITY EUROPE TO BE SAFEGUARDED BY EUROPEAN POWERS

#### WEDDING BELLS WILL RING FOR YOUNG COUPLE

An event of more than passing interest to the younger social set of Tonopah will be brought to a happy consummation Thursday at high noon when Miss Earlmond Bailey, charming daughter of Mrs. Leah Colwell, of Tonopah and Mono Lake, will be led to the altar by Leonard H. Hathaway, manager of the meat department of the Mine Workers' Mercantile company. The ceremony will be performed at the Presbyterian parsonage in Reno, the happy couple having left Tonopah by auto this noon accompanied by Miss Bailey's mother and sister.

Following the ceremony the newly wedded pair will proceed to Los Angeles where they will visit for a short time with Mrs. Hathaway's brother, when they will go to San Francisco, from which point they sail for Honolulu. Their honeymoon trip will cover a period of about six weeks, when they will return to Tonopah where Mr. Hathaway will again resume his duties.

Mr. Hathaway has been a resident of Tonopah for about a year, and during that time has established many friendships through his ardent attention to his duties and his pleasing attitude toward the community at the Mine Workers' Mercantile store. He is a young man of ardent integrity, honest in all his dealings, and has a multitude of friends who wish both he and his bride a word of happiness. Miss Bailey came here about nine months ago with her mother, Mrs. Colwell, and an uncle, Ernest, Caldwell, an assayer and chemist. She is a young lady of pure personality and charming demeanor, and is extremely popular with all her friends and acquaintances.

(By Associated Press)  
PHILADELPHIA, Pa., Oct. 25.—Surgery is advancing into a new era opened by the world war, Dr. W. J. Mayo of Rochester, Minn., told the American College of Surgeons at the opening of its annual congress here.

#### SURGERY ENTERS NEW ERA RESULT WORLD CONFLICT

"The great war brought to a close a period in scientific surgery, of which the late Dr. John B. Murphy of Chicago was the most brilliant exponent," said Dr. Mayo, in delivering the John B. Murphy oration on surgery. "This period was characterized by the advancement of the principles of surgery, investigation of the relation of micro-organisms to disease, and the development of clinical medicine on a pathologic basis. As a result of many causes, of which the profound influence of the great war may be counted as one, we see, perhaps dimly, that surgery is taking on a new aspect. It is no longer possible for the individual surgeon in the face of the enormous amount of new and as yet unorganized knowledge, to cover the ground that Murphy covered."

(By Associated Press)  
PHILADELPHIA, Pa., Oct. 25.—Surgery is advancing into a new era opened by the world war, Dr. W. J. Mayo of Rochester, Minn., told the American College of Surgeons at the opening of its annual congress here.

(By Associated Press)  
BUDAPEST, Hungary, Oct. 25.—Former Emperor Charles, whose attempt to reestablish himself upon the Magyar throne met with dismal failure yesterday, attempted to commit suicide by shooting following his arrest near Kistar. Former Emperor Zita saw him prepare to shoot himself and prevented him from carrying out his intention. The former emperor and empress now are prisoners in Esterhazy castle at Toka. Tarkos and Thomas Deak, both British high commissioners, is busy these days with representatives of other nations to insure the safety of the prisoners.

Orders sent to the rebellious troops by Admiral Horthy, Hungarian general, spelled the doom of Charles' attempt to regain at least part of his former empire. The regent reminded the soldiers of their oath of allegiance to him and demanded their unconditional obedience, adding that the success of their undertaking would mean ruin to the country. The first band of Horthy had no effect, and the royalist troops, organized Government troops continued the pursuit and the Karlov, premier, M. Rakovsky and Count Andrássy, who were among the supporters of the former monarch, were captured by royal troops. The advantage of an opening Charles in the Abbey of Tihany was in the ally finally decide his fate. He being dissuaded by the government, it is believed that he will remain in the Abbey, and will be kept under guard until he is released. The advantage of an opening Charles in the Abbey of Tihany was in the ally finally decide his fate. He being dissuaded by the government, it is believed that he will remain in the Abbey, and will be kept under guard until he is released.

(By Associated Press)  
PARIS, Oct. 25.—The Allied powers are the future treatment of ex-Kaiser Charles has been decided only on one point—he must be put in a position where he will be absolutely unable again to flaunt the responsibility of Europe, it was declared by French official circles today.

(By Associated Press)  
L. A. ROBINS SUBMITS  
TO MINOR OPERATION

L. A. Robins, assistant dentist at the Tonopah Belmont subsidiary to a minor operation at the Mine-Operatives' hospital this morning. It was a complete success and Mr. Robins is making a fine recovery.
